SUBMITTED PRINTABLE ARTWORK

FILE SPECIFICATION

- Submitted print file format must be **ai, pdf** with preserved editing capabilities, **eps** or **cdr**;

- The artwork must be scaled 1:1 accordingly with the print-safe areas of the bottle, as shown on its technical drawing.

- All fonts used in the artwork must be outlined or submitted along with the design file;

- All external image files used in the artwork must be copyright-cleared, embedded or linked and submitted along with the design file.

- Raster graphics must be **psd, TIF, JPG, PNG** files in **CMYK** color mode or **DUOTONE** colors from **Pantone + Solid Coated** library, with resolution not less than 300 dpi at print size.

- For vector objects use only **Pantone + Solid Coated** colors or gradients. Each color must be separated in a layer, layers stacked in their printing order. Overprints with lighter colors to be avoided when possible.

- For decorations which include surface coating use **RAL** color matching system;

VECTOR ART				RASTER GRAPHIC
